

PARADOX

PARADOX MATTING SOLUTIONS

Need a temporary access solution to reach a remote location, protect sensitive terrain, or provide ground stabilization for heavy machinery? No matter the size of your project or the industry you operate in, Paradox's team of experts will deliver an optimized matting solution designed to meet your exact needs. We pride ourselves on jobs done right the first time - no matter the challenges.

ABOUT PARADOX

Paradox Access Solutions is a design-build contractor providing safe, reliable access across Canada with our matting, geosynthetics, earthworks, and engineering services. Since 2004, we've provided temporary and permanent access solutions that outperform and outlast conventional alternatives, while protecting the environments and communities that we work in.
